

# Step Therapy

For the Cigna Healthcare Rx Plus and Cigna Healthcare Rx Premiere prescription drug lists.

Prescription medications can cost a lot of money. At Cigna Healthcare, we get that. That's why we've created a program that helps you save money and stay healthy. It's called Step Therapy.

## What is Step Therapy?

**Step Therapy** is a prior authorization program. This means that certain medications in the Step Therapy program need approval from Cigna Healthcare<sup>SM</sup> before they're covered by your plan.

In Step Therapy, you need to try the most cost-effective and appropriate medications available before your plan covers more expensive brand name medications to treat your condition. Typically, you start by taking generics or lower-cost preferred brands. Generic medications have the same strength and active ingredients as brand name medications – but often cost much less – in some cases, up to 85% less.\*

The Cigna Healthcare Step Therapy program includes medications used to treat the following common medical conditions:

- Allergies
- Asthma/COPD
- Diabetes
- Mental health
- Overactive bladder/bladder problems
- Sleep disorders

## How does Step Therapy work?

In Step Therapy, you have to follow a series of steps before your higher-cost brand name medication may be covered by your plan.\*\* Step Therapy varies by condition, but in general, it works like this:

- Try at least one lower-cost alternative.
- If you try one or more alternatives and your doctor feels they aren't right for you, you can receive coverage for the higher-cost brand.

When you fill a prescription for a Step Therapy medication (the higher-cost brand), we'll send you and your doctor a letter that lets you know the steps you need to take before your next refill.

## Am I taking a Step Therapy medication?

Go to [Cigna.com/ifp-drug-list](https://www.cigna.com/ifp-drug-list) to look up your medication. If there's an (ST) listed next to your medication, then it's part of the Step Therapy program. Once you're enrolled with Cigna Healthcare, you can log in to the [myCigna® App](#) or [myCigna.com](#) to learn more about how your plan covers your medication.

## Individual and Family Plans
